We've had a sneak preview of this new Memory-Map branded GPS and like what we see; we haven't had a chance to test or use the unit on the hill as yet as stock isn't due until 23rd November, when we do however we will post a review on our website.

The little time we did have to explore the unit confirmed what we expected; that Memory-Map have moved on from their previous partnership with Road Angel where the offering was the Road Angel Adventurer; a waterproof and rugged PDA with integrated GPS that offered Road Angel SatNav software and MM Mobile in one unit, a disadvantage to many purchasers particularly walkers who just wanted to use the device for navigation on the hill rather than as a SatNav.

At this point it's worth explaining what we mean by Memory-Map Mobile; most software systems like MM allow you hold the software on 2 PC's (a laptop and a PC for instance) and then offer an application that can be copied to a mobile device or PND (personal navigation device) pocket PC or PDA.

What does all this mean? It offers a solution to the old issue of buying you maps twice; if you have MM on your PC and MM Mobile on your PND then you can not only copy your overlay files like waypoints & routes but either the whole or a portion on the map itself. It's a two stage process first you select the map you wish to copy and then you transfer the overlays which will be seen overlaid on the map.

This time MM have stuck out on their own; and offer the new [Adventurer 2800](#) completely under the MM brand; it's not a SatNav you can use MM Mobile on, it's a PND with integrated GPS that runs MM Mobile and SatNav software if you pay extra for it.

GPST offer the above package at £250 including delivery, a free pack of waterproof paper worth £15 and a copy of our MM made Easy book worth £9.99 in the deal. Visit this [page on our website](#) to get your hands on the new MM Adventurer 2800.

Final GPST Comment whilst this GPS will allow you to make full use of your existing maps by copying them to the unit for use in the field; a word on caution as this is a PND don't expect the full GPS functionality you might expect from a handheld GPS device but its ideal for existing MM V5 users

What's in the box?

- Adventurer 2800 GPS
- 2GB micro SD card pre-loaded with selected Ordnance Survey® Landranger® 1:50,000 maps of Britain's National Parks Additional 10,000km2 Ordnance Survey Landranger 1:50,000 Digital Map Shop Map Credits
- Memory-Map PC Software for route planning & map printing -
- Mains & Car Charger
- Lanyard & Belt Clip

GPST Website changes and GPST Team Membership added

We've been hard at work over the last few weeks making changes to our website; we've removed the sidebar with its clunky links to our web pages and added a top bar with links to our web pages in a drop down menu – visit www.gpstraining.co.uk to view our changes

In addition we've added what we've called [GPST Team Membership](#). Membership is free to all GPST clients; if you receive this newsletter you are already on our mailing list and a valued customer, we would like to invite you to become a GPST Team We've decided to make just access to member pages password protected rather than ask you to register and login every time you visit our website.

To view the member's pages use this link and the following login details:

- **User Name** – GPST
- **Password** – Bracken

Team Membership will offer:

- Technical support with any product purchased from GPST
- Post-course contact and support
- Information and news on the GPS world
- Regular newsletters
- Special offers from GPST
- Links to GPST partners
- Access membership benefits like discounts on partner products such as
- Free Quo software and 15% discount all Quo mapping downloads
- £2.50 saving on annual Walkingworld subscription
- 20% Discount on Double Rooms booked on B&B basis at the Mill Inn Mungrisdale.

We hope you find the members pages useful; any feedback and suggestions of page content would be welcome. If you run a business and would like to offer our Team Members benefits then please contact Peter on 01768 885855 or by email peter@gpstraining.co.uk

Deal of the Month - Dakota 20 Bundle £350

Get your hands on our Deal of the Month; which includes Garmin's best selling GPS the Dakota 20. Packed with new features which include the new sunlight readable colour touchscreen, 3 axis electronic compass and paperless Geocaching plus all the features you would expect from the Dakota/Oregon Ranges.

We haven't stopped there - knowing you will want to take advantage of the opportunity the Dakota offers of adding full OS mapping to the unit we are including an OS Discoverer 50k Regional plug & play micro SD card of your choice (choose the region you prefer from the drop down list)

Then knowing you will want to learn how to get the best from your new GPS we've added unrestricted access to GPST's OnLine Training Resource (RRP 29.99) which includes 14 lessons, with all step by step instructions, video demo's based on the Dakota/Oregon operating system

Finally the bundle will be delivered Free! We're still not finished; you will be offered access to GPST Team Membership which offers on-going technical support and money saving benefits on a wide variety of GPS related products.

Package includes: Garmin Dakota 20 – [Buy Now](#)

One half price Garmin OS Discover Region of your choice at 50K scale

Turn by turn directions with street maps for the whole of Great Britain

Points of Interest data for Great Britain

Offer only available until the end of December 09

News from the World of GPS

- 2010 Dates are now available for both [Bronze & Silver Level NNAS Awards](#)
- Geraldine is running [Silver Level](#) awards in the Lakes in May, July and September.
- Full GPST 2010 programme now available online
- Lowrance Endura Range launch imminent visit our [webpage](#) for more details

- Memory-Map launch Adventurer 2800 – details in this email & on the [GPST website](#)
- Look out for Dakota unit software updates, mainly fixes for initial switch off problems and for some reason the Dakota doesn't like certain .gpx.files.
- Remember the button clip for the GPS 60's? We've found a [button clip](#) for the Oregon & Dakota ranges; it should make it easy to clip the unit to your rucksack shoulder straps giving great reception and easy to unclip for easy use – only £7.99 including delivery.
- If you own a Colorado, Oregon or Dakota GPS you can purchase [Garmin OS Discoverer 50k Regional Maps](#) on SD card from GPST – save 10% on the RRP
- Most of the software houses have had issues with data transfer to and from the Dakota 20 & Oregon 550 & 550t expect fixes soon – once again we think this is a .gpx.file issue
- Latest software updates are: Memory-Map V5 5.4.2 – Quo V2.1.3
- [Quo](#) are offering OS Ireland Maps from November
- Satmap offer major unit [software update](#) and [updated version of SatSYNC](#) in Nov 09 – we've tested the beta versions, they offer great new features plus important changes to the menu pages making them more user friendly.
- [Satmap](#) has further added to its international map collection by launching new mapping for Spain, Corsica, The Netherlands and Northern Italy. These raster maps show all the details such as footpaths, contours and local landmarks that you need for your outdoor sport.
- [ViewRanger](#) have a Xmas offer; Buy any ViewRanger National Park Explorer edition and receive an Over-The-Air token worth £15 absolutely free.
- Look out for [EveryTrail](#) update to V4 – international route sharing website
- Use your free [GPST Membership](#) to download Pete's List of Walking & Bikey Websites.

[Save 50% on our OnLine Training Resource](#) – offer only valid until Christmas.

Over the last few weeks we've reviewed all the lessons in our OnLine Resource and updated them in the light of new developments in the GPS world, and so far this autumn we've added 2 Quo lessons, and a Map reading for GPS lesson bring the lesson total up to 15. In addition we have 2 Satmap lessons more or less ready to go (we're just waiting for the firmware update to be released) and are working on a set of Anquet lessons, both of which should be ready for late November.

If you've read our free lessons or attended one of our courses and would like to have unlimited access to this great resource then why not take advantage of this Christmas Box from GPST – use this link to our GPS Shop and you will be able to [Save 50%](#) and purchase the OnLine Resource for just £15. This offer will only be available until the end of December 09.

[Late Availability Offers on courses in Dec – Save £39 when booking both days](#)

We have late availability on the following two courses: 425H Hampshire Martyr Worthy & 428M (Mungrisdale North Lakes) book both days and save £39 on the normal price – now only £99pp for the two days. Booking Online or by phone via the office 01768 885855.
